JESUS LOVES EVERYONE

"For this is how God loved the world:
He gave his one and only Son, so that everyone
who believes in Him will not perish but
have eternal life." John 3:16

God loves everyone! It means that no matter where we live or how we look like, God loves everyone the same.

3 - 6

Let's do a little exercise!

- Stretch your arms out to your sides as wide as you can.
- Now stretch one arm as far as you can above your head.
- Stretch the other arm as low to the ground as you can.

God's love is very deep and wide!
Say this together with your Dad or Mom: "Thank You, God, for loving us so much!"

7 - 12

Make a guess! Currently, how many people are there in this world?

- (a) 5.8 billion
- (b) 7.8 billion
- (c) 3.4 billion

Feel free to look it up on the Internet with Dad or Mom.

The Bible says that God loves everyone. That means, God loves ALL ____ billion people in this world!
How amazing!

Dear God, thank You for sending Jesus to love us. Help us to love like Jesus. We love You, God. In Jesus' name, Amen.

Parents, use the topic below to start a God-conversation with your children.

Talk about a time when you felt God's love in a tangible way.

MAKE YOUR OWN KALEIDOSCOPE

MATERIALS NEEDED:

- 2x Toilet Roll
(1 as the main, the other to create the lens)
- Thin Cardboard
(eg: backing of a foolscap pad)
- Glue & Scissors
- Thick Clear Plastic
(eg: lid from a plastic takeaway container)
- Aluminium Foil
- Clear Tape
- Hole Puncher
- Washi Tape / Stickers
- Permanent Markers
- Crayons

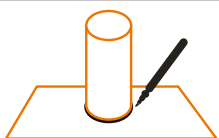

INSTRUCTIONS:

DECORATE THE KALEIDOSCOPE

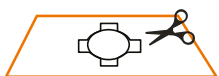

1. Decorate one toilet roll. Do not cover both openings.

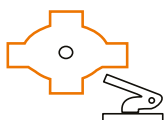

THE PEEPHOLE

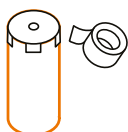

1. Hold the decorated toilet roll vertically on the thin cardboard. Trace around it to get a circle.

2. Draw a few flaps on the circumference of the circle. Cut out the shape.

3. Create a peephole by punching a hole in the center of the circle.

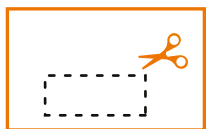

4. Close up one end of the toilet roll with this cut piece by folding the flaps down. Secure it with tape.

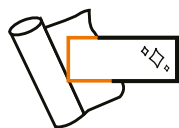

MAKE YOUR OWN KALEIDOSCOPE

THE INNER PRISM

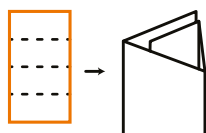

1. Using the thin cardboard, cut out a piece of rectangle following these dimensions:

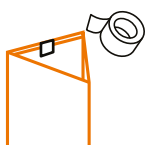

- Total length: 1 cm less than the length of the toilet roll.
- Total width: 0.5cm less than the diameter of the toilet roll.

2. Wrap the rectangle with aluminium foil and glue the foil down. Ensure that the shiny side is facing you.

3. Make a prism: fold the foiled cardboard into half then into half again to achieve 4 equal parts. Create the prism by ensuring that 2 out of the 4 parts overlap.

4. Tape the side with the 2 parts overlapping.

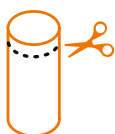

5. Slot the prism into the toilet roll till it touches the peephole. Leave a gap between the prism and the open end of the toilet roll.

MAKE YOUR OWN KALEIDOSCOPE

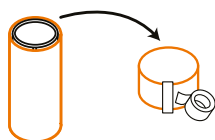

THE LENS

1. Take the other toilet roll and cut out about 1 - 1.5cm in height.

2. Make a second cut down the middle.

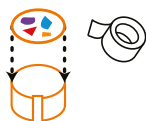

3. Fit the piece snugly into the open end of the decorated toilet roll. Take it out, hold the shape and tape it - this is the lens.

4. Trace around the lens on thick clear plastic. Cut it out.

5. Use permanent markers to colour patterns on the plastic.

6. Glue/tape the decorated plastic circle to one end of the lens.

7. Decorate the rest of the lens with markers, washi tape or stickers.

8. Slot the lens back into the open end and there you go - your Kaleidoscope made of home-made materials!
